

Leintz

Compressed Air Redefined

2 TO 5HP Models

RECIPROCATING AIR COMPRESSORS

ADVANTAGES :

- Imported Block
- Cylinders Designed for Lesser Wear and Tear of Rings
- Balanced Pulleys to minimise Vibration Levels
- Low Specific power consumption
- Back - pressure Relief Valve for reducing initial load on the motor

7.5 TO 10HP Models

Compressor Designed Manufactured & Tropicalised for Indian Conditions

Standard scope of supply :

- Automatic start stop control
- Horizontal air receiver
- Discharge pressure gauge
- Manual drain
- Non return valve
- Safety valve
- V-belts & belt guard
- Drive and driven pulley
- Pressure switch & starting arrangement
- Suction filters cum silencers
- Hour Meter

Options :

- Drive : Electric Motors.
- Castor Wheels for portable Mountings.
- Vertical Receivers
- Moisture separators & micro filters for oil free applications
- Automatic condensate drain traps.
- Air Dryer
- Pressure regulators

Technical Specifications

Model	Motor Rating	No. Of Stages	No. Of Cylinders	Piston Displacement	Free Air Delivery 12 Bar cfm	Receiver Tank Capacity
	HP			CFM		
LAC-2150	2	2	2	6.6	5.3	150
LAC-3150	3	2	2	8.8	7.06	150
LAC-5250	5	2	2	17.6	14.13	250
LAC-7250	7.5	2	3	26.5	21.2	250
LAC-10250	10	2	3	35.3	28.6	250

- All performance parameters with tolerances as per Indian Standards.
- As product development is a continuous process with us, specifications may change without notice.
